## TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

- Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
- Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. If any of above boxes 1. to 4. are checked, the correction required is only the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121.

**Extensions of time** are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action.

**Failure to timely respond** to this notice will result in:

**Abandonment** of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action; or

**Non-entry** of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

Continuation of 1(c) Other: The amendment filed on April 2, 2008, is considered non-compliant and has not been entered because it fails to meet the requirements of 37 CFR § 1.121, as amended on June 30, 2003 (see 68 Fed. Reg. 38611, Jun. 30, 2003).

The amendment to the specification is non-compliant because it amends paragraphs in the specification but fails to show each and every change made relative to the immediate prior version. Notably, e.g., the specification amendment filed December 7, 2005 at page 10, added SEQ ID Nos for nucleotide sequences at page 14 of the originally filed specification; yet in the amendment filed April 2, 2008 at page 9, these SEQ ID Nos are absent and this change is not properly demarcated. Furthermore, it is aptly noted that had the amendment been entered, the application would not be in sequence compliance. Accordingly, the amendment is not in compliance with the requirements of 37 CFR § 1.121 and has not been entered. Applicant is requested to fully review subsequent specification amendments to ensure that these amendments properly show each and every change made relative to the immediate prior version of the specification as required by 37 CFR § 1.121. The Examiner apologizes that this deficiency in the specification amendment was not recognized earlier.

Only the corrected section of the non-compliant amendment must be resubmitted (in its entirety), e.g., the entire "Amendments to the specification" section of applicant's amendment must be re-submitted. 37 CFR § 1.121(h).
